

## Kearny Mesa Planning Group Requested Discussion Items

### Discussion Topic: Where is it most important for Kearny Mesa to connect?

- How do we connect KM East to KM West so workers from the East can easily access the shops and restaurants in the West? Buses, Uber/lyft, bikes?
- The east side employment center is surrounded by residential a mile or two away—Clairemont, Tierrasanta, Serra Mesa---. It was planned that way in the 50's when General Dynamics employed thousands of people. Would frequent bus service from these neighborhoods (every 15min in the AM and PM) be used; be beneficial to the employers, employees, reduce traffic?
- Could thru traffic on Convoy be routed around "the district"?
- How do we make Convoy more walkable?
- How/where can Convoy add parking to support the shops?

### Discussion Topic: Where are improvements in urban design needed in Kearny Mesa?

- Should the District have architectural guidelines?
- Does current signage hurt or help the Convoy District's image?
- Would trees on Convoy make it more walkable and be good for retailers?
