As a property owner, tenant, or person who has requested notice, please be advised that the Planning Commission will hold a public hearing to **recommend** approval, conditional approval, or denial to the City Council of a proposed update to the Kearny Mesa Community Plan, General Plan Amendments, and Municipal Code Amendments and Local Coastal Program Amendment.

The Kearny Mesa Community Plan Update consists of the following components: amending the 1992 Kearny Mesa Community Plan and incorporating the updated Kearny Mesa Community Plan (Community Plan) into the City's General Plan; repealing the StoneCrest Specific Plan; amending the Municipal Code and Local Coastal Program, which include amendments to the Land Development Code (Chapter 13 Article 1 Division 5 [Development Regulations Tables for Commercial Zones] and Chapter 13 Article 1 Division 6 [Development Regulations Table for Industrial Zones] for the Kearny Mesa Planning Area, Chapter 13 Article 2 Division 14 [Where the Community Plan Implementation Overlay Zone Applies] for areas within the Kearny Mesa Planning Area, and Chapter 13 Article 1 Division 6 [Purpose of the IS Zone] that would apply citywide); rezoning using Citywide zoning consistent with the updated Community Plan; and certifying a Program Environmental Impact Report.

The proposed Community Plan provides a long-range, comprehensive policy framework and zoning for growth and development of the approximately 4,400-acre Kearny Mesa Planning Area. The Community Plan further implements State of California goals and legislation, the City of San Diego General Plan and Climate Action Plan, and the vision developed by community participants. The Community Plan provides policies and proposals for the distribution and intensity of land uses; facilities for pedestrian, bicycle, transit; and vehicular mobility; enhancement of pedestrian-orientation and urban design; and public services and facilities needs, among other topics. Consistent with policy direction in the General Plan and the Climate Action Plan, the Community Plan proposes a land use strategy with additional capacity for employment and residential in Transit Priority Areas. Community Plan also proposes a multimodal transportation system to promote active transportation, increase transit use, and provide more connections in the community. To implement the proposed Community Plan, properties in the planning area would be rezoned. Additionally, some properties would be subject to the application of the Community Plan Implementation Overlay Zone for the purposes of requiring supplemental development regulations to ensure that development proposals meet both general and site-specific criteria.

The decision to approve, conditionally approve, modify or deny the project will be made by the City Council at a future public hearing. You will also receive a notice of the City Council public hearing.
